A New Frontier

Timothy McGeary
Team Leader, Library Technology
Lehigh University
OLE Project Participants

Duke University (lead)
Columbia University
Lehigh University
Library & Archives Canada
National Library of Australia
Orbis Cascade Alliance
University of Pennsylvania

University of Chicago
University of Florida
University of Kansas
University of Maryland
Vanderbilt University
Rutgers University
OLE Project Vision
http://oleproject.org/overview/project-scope/

• Flexible, Adaptable, Community-developed
  – Managing libraries that support research, teaching, and higher learning

• Improvement beyond the ILS
  – Format and resource agnostic – integrate print and electronic, books and journals and videos, special collections, etc.

• Service-Oriented Architecture
  – Re-usable design, module based
OLE Project Goals

http://oleproject.org/overview/
project-scope/

- Community-based software development and governance
  - sustain, extend and integrate the framework in the academic and research environment.

- Raise the Library System to the enterprise level
  - Become a key component of the developing cyber-infrastructure (interoperability with Identity Management, ERP, CRM, Course Management, etc.)

- Complements human interactions
OLE Project Timeline

http://oleproject.org/overview/project-timeline/

September
- SOA Training;
- Defined Scope
- Document

November
- BPM Training
- Project Planning

December
- Regional BPM Workshops @ 8 US locations and Australia
OLE Project Timeline
http://oleproject.org/overview/project-timeline/

- OLE Project team meets; BPM modeling begins; **NLA Services Framework adopted as foundation**
- First validation Workshop held at Georgia Tech
- OLE Project meeting to refine models; Define OLE core services; Conference call with CIO, Library Directors, and Senior IT

January | February | March
OLE Project Timeline

http://oleproject.org/
overview/project-timeline/

May

- OLE Project team to develop draft document of Open Library Environment requirements

June

- Publish draft version of design document for community input

July

- Publish final design document
Connecting with Other Projects

• OLE is defining the core Service-Oriented architecture
• We are reaching out you!
  – to learn from your experiences
  – to seek ways that the Open Library Environment might integrate with your projects
http://oleproject.org/2009/02/24/ole-project-related-applications-survey/
Thank you
